

THE UNIVERSITY *of* EDINBURGH

Edinburgh Award (School of Informatics: Makerspace Advanced Student Technicians)

This award is given to students whom the University has recognised for actively working to maximise their impact and excel as an advanced makerspace technician. By engaging with self-selected projects these students have developed new and existing technical skills. Additionally, they have taken on a mentoring role for their peers, sharing their knowledge and expertise:

In successfully completing the Edinburgh Award, these students will have been helped to:

- increase awareness of their strengths;
- make the most of their strengths, identify areas for development, and work on a plan to develop these skills;
- confidently demonstrate what they have to offer to others;
- achieve a positive and lasting impact; and
- look not only at their role as an advanced technician, but also to capitalise on their experiences elsewhere to inform and enhance their role as a technician, and vice versa.
